MOVIA-30W

Fast Movement
Pan: 30°/s Tilt: 40°/s

High Precision Positioning
Pan and Tilt <1.5° per move

Silent Movement

Precision Step Motor

Different from the traditional gear structure design, 3 DC motors drive the movements of the fixture. It allows MOVIA to precisely control with fast 40D/S adjustments coupled with low noise and high speed operation.

WATTAGE: 30W

MOVEMENT RANGE
Pan: 0°-360° Tilt: 0°-±140°

High Efficiency Convection Design

High efficiency heat convection design ensures long lifespan. Perfect thermal management integrates small body with big wattage makes the motor with less resistance for more efficient operation.

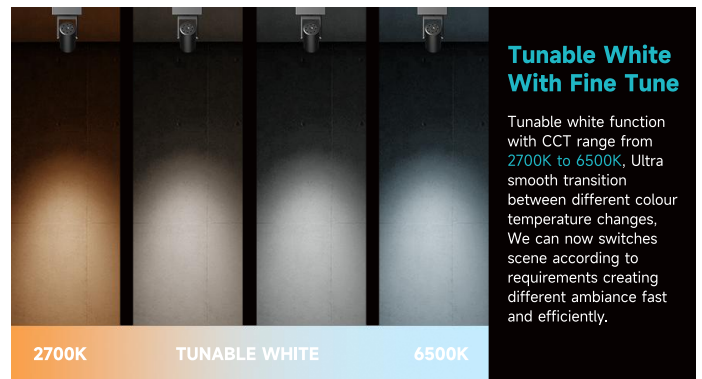

Zoomable & Flexible

From 18°-60°, It can be changed to suit different events, scenarios, functions or even table size.

ZOOMMABLE
Beam Angle: 18°-60°
